Summary

Results-driven **Full Stack Developer** with **8 months** of experience in building and optimizing web applications using the **MERN stack**. Adept at **performance optimization**, **API development**, and **scalable application architecture**. Experienced in **Git for version control**, leading to **efficient code collaboration**. Spearheaded **React performance improvements**, reducing load times by **30%**. Passionate about solving complex technical challenges and delivering impactful solutions.

Technical Skills

Frontend: React, Redux, HTML5, CSS3, Tailwind, JavaScript
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication
Databases: MongoDB, Mongoose
Tools: Git, Postman
Soft Skills: Problem Solving, Communication

Experience

REGex Software Services

February 2024 – November 2024

MERN Stack Developer

Jaipur, Rajasthan

- Assisted in building and maintaining **full-stack applications** using **MongoDB, Express.js, React, and Node.js**.
- Developed and optimized **server-side logic, database management, and API integration**, improving application efficiency by **30%**.
- Worked under the mentorship of **senior developers**, contributing to **live projects** and gaining hands-on experience in **scalable application development**.
- Managed **Git repositories for 3+ projects**, ensuring efficient version control and team collaboration.
- Debugged and optimized existing codebases, leading to a **25% reduction in bugs and performance issues**.

Projects

E-commerce Website

- Designed and built a full-stack e-commerce platform featuring product listings, a shopping cart, secure checkout process, and user authentication.
- Highlights experience with handling data, managing user accounts, and implementing e-commerce specific functionalities.

Real-time Chat Application

- Developed a real-time chat application enabling users to communicate instantly.
- Employed the MERN stack along with WebSockets to facilitate seamless message delivery and display.

Trello Clone

- Developed a full-stack web application replicating the core functionality of Trello, a project management tool.
- Developed features including board, list, and card creation, drag-and-drop task management, and real-time updates. Demonstrated proficiency in building interactive and collaborative web applications.

Education

University College of Engineering, Bikaner

Aug 2018 – Sep 2022

Bachelor of Technology in Computer Science
