EXPERIENCE

MERN Developer Intern

15/02/2024 - PRESENT

Designed and developed dynamic and responsive web applications using React.js, enhancing user experiences across multiple devices.

Leveraged HTML, CSS, Bootstrap, and Tailwind CSS to craft visually appealing and user-friendly interfaces.

Integrated MongoDB, Express.js, and Node.js, for backend development, creating robust and scalable APIs.

Managed complex application state efficiently using Redux, optimizing performance and maintainability.

INTERNSHALA

10/04/2021-19/06/2021

Completed a 2-month training program as a Web Developer Trainee.

Specialized in HTML, CSS, and Bootstrap for web development projects.

Gained practical experience in implementing responsive and user-friendly interfaces.

PROJECTS

Task Management App

Developed a task management application that allows users to create, update, and delete tasks.

E-commerce Frontend

Created a dynamic frontend for an e-commerce website featuring product listings, individual product detail pages, and a shopping cart.
